Experience

Mean Stack Developer, Proexelancers – Surat,Gujarat   March 2023 – February 2024

- Develop and maintain web applications using the MEAN stack (MongoDB, Express.js, Angular, Node.js).
- Write clean, scalable, and efficient code for both the frontend and backend.
- Design, implement, and maintain MongoDB databases.
- Develop RESTful APIs using Express.js and Node.js.
- Integrate external APIs and third-party services.
- Write unit tests, integration tests, and end-to-end tests to ensure application quality.
- Debug and resolve issues and bugs in a timely manner.

Projects

DP360CRM

- I worked on maintaining application functionality and improving performance in a project.
- Additionally, I gained experience in manual testing to ensure quality and reliability.
- Technology: Angular And Jasmine

Actio Sports

- I worked on maintaining the application and focused on the backend side. My main task was to create RESTful APIs.
- Technology: Angular,Node.js,Express.js And MongoDB.

Actio Admin

- I work on this project from scratch and create RESTful APIs based on the requirements.
- I track the assigned tickets on Jira to complete all tasks.
- Technology: Angular,Node.js,Express.js And MongoDB.

Actio Academy

- In this project, my focus is entirely on the front-end tasks. I am responsible for maintaining the application, ensuring it runs smoothly and efficiently.
- This role allows me to contribute directly to enhancing the overall user experience and functionality of the application through continuous improvement and innovation on the front-end side.
- This involves optimizing performance, fixing any user interface issues, and integrating new features as per the project's evolving requirements.
- Technology: Angular,Node.js,Express.js And MongoDB.

Education

Bachelor Of Computer Application, Pune University   June 2019 – May 2022
Higher Secondary Certificate, State Board   June 2017 – February 2019
Secondary School Certificate, State Board   June 2016 – March 2017

Technologies

FrontEnd: Html5,Css3,JavaScript,TypeScript,Angular,React.js,Next.js

BackEnd: Node.js,Express.js,C#,ASP.NET

Database: MongoDB,MySQL,PostgreSQL
